Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 : Soil Testing & awaress	Stage 2 using opticrop	Stage 3:Harvesting & Feedback
Actions <i>What does the customer do?</i>	Farmer gets a laboratory report of their soil parameters (N, P, K, pH)	Enters the N, P, K, pH, and local weather values into the OptiCrop app	Plants the recommended crop, harvests it, and checks the actual yield.
Touchpoint <i>What part of the service do they interact with?</i>	Soil testing lab report paper	OptiCrop website input form / mobile screen.	The physical farm field and the app's final results page
Customer Thought <i>What is the customer thinking?</i>	I have these chemical numbers, but what do they mean for my crops?	Is this recommendation accurate? I hope it's easy to follow	"The recommendation worked! My yield is much better this season."
Customer Feeling <i>What is the customer feeling?</i>	Confused., uncertain	,cautious hope full	Satisfied,relieved,confident

Process Ownership <i>Who is in the lead on this?</i>	Local agricultural lab techs	Opticropsystem/software developers	The farmer & Opticrop Support.
Opportunities <i>How can we improve this stage?</i>	• Opportunities (How can we improve?)Provide simple guides explaining what N, P, K parameters mean.	• Keep the UI clean, load fast, and support local language	• Allow farmers to save their history to compare yields year-over-year.
